Executive summary replica
Since June 2011 to present time South Kordufan/ Nuba Mountains and Blue Nile states of Sudan have undergone through conflict. This resulted in many atrocities and different human rights violations occurred. The Government of Sudan (GoS) had earlier declared the state of emergency in the two states. Later the GoS formed the Rapid Support Forces a replica of Janjaweed militia. The GoS equipped the RSF with more destructive equipment and enlarged their field of work to include the two states (SK and BN) in addition to Darfur.

The aim of this report is to bring to light the human rights violation and abuses taking place in SK and BN states (government territory) of Sudan and the situation of internally Displaced Persons (IDPs) from the two states. The information included in this report was gathered by trained monitors using a well prepared instrument that developed under supervision of HURICAP/ AI-NL and compiled by trained reporting panel. The report does not cover all incidents that occurred due to many challenges and limitations.

The violations and abuses included in this report are; arbitrary arrest and torture which were mainly carried out by Military Intelligence (MI) and National Intelligence and security Services (NISS) in conflict areas. This intensified because of the emergency status which allows the military forces to arrest civilians. There are also cases of extrajudicial killing and death under torture mostly carried out by military and their allied militias (the Rapid Support Force and People Defense Force (PDF). Also, there are many murder cases that were not investigated even where the perpetrators are known and partly because of insecurity. Cases of sexual violence were mainly committed by Rapid Support Force (RSF) and the police could not carry out investigations and there was no reaction from authorities. The Christians and students were targeted more than before. The report gives recommendations calling on both parties at war to consider and respect the international human rights laws, calling upon regional and international bodies to compel the Government of Sudan (GoS) to respect the international human rights and humanitarian laws.

3 A Brief Background
When the war broke out in 2011 in SK and BN, the State of Emergency was declared in the two states by President Omer Elbashir and then ministry of defense announced a series of military campaigns. In August 2013 one of the government’s most violent

2 The decisive summer military campaign which announced by Sudan ministry of defense in 2013, renewed its announcement in 2014 and 2015.
militias the Rapid Support Forces (RSF) was transferred from ministry of defense to National Intelligence and Security Services (NISS) which is directly under the president's office. The RSF was empowered, equipped and given more authority in their operations, which stretch from Darfur to SK and later in 2016 to BN. They have been committing many atrocities ever since. There is also the presence of government allied militias known as People Defense Force (PDF). PDF is mainly composed of nomads' from specific tribes. This contributed to the extreme violations, deterioration of human rights, insecurity and humanitarian situation.

Since 21st October 2015 the Sudan People Liberation Army-North (SPLA-N) and Sudan government announced ceasefire many times but, they have not committed to it. However, the fighting relatively reduced.

There was an initiative known as the "Road Map" which was prepared by African Union High Implementation Panel (AUHIP). The AUHIP proposed a political settlement for the Sudan conflicts which was signed by Sudan government on March 2016 and by Sudan Call after five months of international interventions in August 2016.

On the other hand, there was a national dialogue in Khartoum that finalized the discussion and submitted their recommendation on October 2016 to the president Omer Elbashir. Later the recommendations were published in Sudanese local media by president’s office however; some of the people who participated in the national dialogue were not in agreement with what was published. They claimed that the paper had been altered and modified.

The Conflict Analysis and Resolution expert, Adeeb Yousif commented that: "The Sudan National Dialogue faced many challenges in the absence of the real and effective opposition groups most actively involved in the conflict. Many peace treaties that the GoS signed included political accommodation for parties including the armed rebel groups, those agreements either collapsed or helped to escalate civil wars by creating intertribal fights, eventually resulting in changing the conflict dimensions. Signing peace agreements is one among other tactics the GoS has been using to maintain power in Sudan. Therefore the National Dialogue with the witnessed mechanism will be as the same as other previous treaties."

Important issue should be considered that, when examining Sudan's human rights record under the UN Universal Periodic Review (UPR) process in 2016, in some of the recommendation Sudan accepted the ratification of the UN Convention against Torture.

---

3 The real reality is that the Rapid Support Forces are the re-production of Janjaweed Militia using the same tactics, unfortunately with more destructive power.

yet it has not reduced the power and impunity from NISS and military forces in order to ensure independent investigation and prosecution of crimes (human rights violations) committed by the forces\textsuperscript{7} under international law.

4 Statement of the problem
Since the war broke out in 2011, the humanitarian situation in SK and BN worsened. Many people were displaced within South Kordufan and others moved further to other states including Khartoum state. The government could not allow them erect IDPs camps wherever they settled. The IDPs and people in conflict areas have been targeted, harassed and arrested while accusing them of associating with SPLA-N.

The general state of insecurity and violations persisted since SK and BN are still under the ‘state of emergency’ as declared by the president of Sudan in 2011.

Many atrocities like arbitrary arrests, unlawful killing, torture, sexual violence among other forms of violence have been committed by RSF, PDF, NISS, MI and in some cases police. People like members of SPLM-N, former SPLA soldiers, students’ unions and Christians have been targeted and arrested arbitrary.

The PDF attacked, killed and sometimes looted villages like in Alsanadra village where many people were killed /massacred by PDF. In other cases of murder, police did not help with investigations for instance those who were found dead especially in gold mines\textsuperscript{8}.

There are also cases of rape of both children (girl child) and adults. Most of the rape cases were reported but, police did not carry out investigations while the perpetrators were known and moving freely.

From 2015, violations especially on the rights of worship/ religion intensified in Sudan. For instance, the threats issued by authorities and the demolition of some churches, arrests of Christian Pastors, leaders and some of their followers. Also there was a case/trial at Khartoum Centre court against Pastors’ and an activist.

Currently, the land related conflicts between nomads (cattle keepers) and the cultivators are exaggerated because some members of PDF support one tribe/side.

The violated rights included in this report are; Security of person, Right to life, Child rights, Rights of women and girls, Rights of civilians within conflict areas, right to worship among other violations.

\textsuperscript{7} Amnesty International, Sudan Report 2016/2017

\textsuperscript{8} There are six gold mines in Talodi locality, those are: 1) Altugula, 13 km east Talodi 2) Al-Lafa, 10 km southeast Talodi. 3) AldaamAlsareaa (RSF), 8 km northeast Talodi 4) Meraidan, 14 km southeast Talodi 5) Alhamia (military HQ), 3km east Talodi 6) Alshargey, 20 km east Talodi.
5 Aim of the Report

6.2 Ethnic composition
South Kordufan/Nuba Mountains state is mainly inhabited by Nuba ethnic tribes, tribes of Arab origin among other groups. The Nuba and other African groups are mainly farmers (cultivators) whereas the Arab ethnic groups are generally cattle keepers.

Blue Nile State is inhabited by African ethnic groups and Arabs their main activities are farming and cattle keeping.

7 Methodology
In data collection and information gathering, HUDO Centre used different methods. HUDO centre had established a network consisting of field monitors and focal people to gather information within the conflict areas and among IDPs. The network/monitors managed to cover some incidents since it was not possible to have easy access to the whole area geographically.

Information from the field was critically analyzed by a reporting panel at Kampala office. The panel used analytical methods to sort the information in order to arrive at accurate findings that are included in this report.

For the purposes of consolidating this report HUDO Centre also used the following methods in collecting and analyzing data/information;

1. HUDO centre developed data forms.
2. Conducted interviews with victims, relatives and witnesses
3. Verified comments from professionals (Lawyers, Doctors e.t.c)
4. Scrutinized official declarations

8 Limitation and challenges
1. The state of Emergency imposed in the two states restricts the movement of field monitors. This directly hindered the process and time taken in collecting data.
2. The keen suspicion from intelligence (NISS and MI) to newcomers in towns and anybody that talks about human rights.
3. Poor means of transport whereby roads are not very accessible within the rainy season.
4. Some of the victims and witnesses do not easily reveal information due to security threats. According to interviews that were conducted by HUDO monitors, some of the victims or the witnesses expressed their fears from security agencies.
5. The number of monitors was not enough to cover the incidents geographically
6. The monitors’ fear for their lives in case the interviewed victims were subjected to torture and forced to reveal them.
7. The general situation of insecurity in the conflict areas
9 Arbitrary Arrest

Through the field monitors and focal people on the ground, HUDO managed to gather credible information about arbitrary arrests. The arrests were carried out mainly by MI, NISS in the two states where the state of emergency was declared. In Khartoum (KRT), the arrests are carried out by NISS and police. The arrested people were mainly unarmed civilians from different villages and towns. Most of them were accused of associating or supporting the SPLA-N. The findings about arbitrary arrests are given below.

and they found a leakage from it flowing to the main pipe. They ordered the butcher to stop slaughtering in this location. The following day, the governor sent them a messenger to form a committee and to come for meeting with him. The same day a committee was formed and met the governor. The governor informed them that, they don’t have a right to stop the butchery and he promised to remove the slaughter house within six months. They complied with the order but requested the governor to give them a letter to show their fellow residents who they represented. Then the governor got annoyed and threatened them by saying “this act is a security threat and I know how to deal with.”

On 18th October 2016, the military surrounded Gogash and they started shooting in the air. They raided the houses of committee members and arrested them all. As a result most of the residents fled their houses. Later on 21st October 2016 the detainees were released after the community leaders’ mediations. Up to end of 2016, nothing was done concerning the slaughtering house.

The four who were excluded in the second arrest are;

1) Azhari Tambara
2) William Telian Koumi
3) William Andraows Eidan
4) Yousif Algeiraf

Background of the case

In 2012 after the cessation of South Sudan, there was an extra ordinary meeting (general assembly) that was held under pressure with observation of state/government and it was ensured that South Sudanese were excluded. The church committees were formed with scrutiny from the state/government under ministry of guidance and endowments which approved the selection.

After one year, some members of the dissolved committee raised an objection to the ministry claiming that the assembly committed a forgery. The ministry accepted their objection and advised them to conduct an alternative assembly under police guidance. This was the time pastor/ Hamad Mohamed Saleh was elected. Pastor (Jafar) commented that “pastor/ Hamad tried his best to be elected again on the new committee. Since he was excluded from the committee because of corruption, he is expected to be questioned on many corrupt deals he was involved in”

The first committee (which the followers considered to be legitimate) raised some objections which were ignored by the ministry even after they went to court and got a supportive court decision which was later interpreted differently by the ministry’s legal advisor. Since then the conflict emerged between the two committees. The first committee supported by the followers (church members) and the second one supported by the ministry backed by police and NISS. The first committee experienced harsh treatment whereby they are arrested with their followers because they objected to mistakes committed by the other committee like the many properties and investment contracts on the church land which were signed. In this case, the second committee came to hand over the school from the current administration to alternative

\textsuperscript{19} equivalent of $ 25 by then
administration but, the current one could not allow the hand over which caused their arrest.

**Arrest of Christians in Medani**

On 9<sup>th</sup> September 2016, in relation to the church committees’ conflicts, a group from the second committee headed by Suliman Ali Nemir accompanied by police and NISS came to Medani evangelical school in order to change the school administration. This raised the disagreement because the school administration refused them and asked for official warning and to be given some time. This led to a clash and the school headmaster pastor/ Samuel Suliman, Pastor/ Salim and others were arrested by police. They were released after two hours. The arrested group went ahead and opened a case against the second committee. The judge ordered the committee to stop any procedure till court makes a decision (judgment). The conflict is still going on (appendix - 1).

Later, on 5<sup>th</sup> October 2016, the police in Medani arrested nine (9) Christians including their leaders;

1) Pastor/ Samuel Suliman  
2) Pastor/ Zakaria Ismail  
3) Pastor/ Salim  
4) Elsheikh Jenwar  
5) Mukaram Burei  
6) Kodi  
7) Abdelmaseeh  
8) Shazali Jomma (Police officer)  
9) Musheira Musa Abakar

The arrest also happened in relation to the church committee’s conflicts. The arrest happened when the second committee that was headed by Hamad came to force eviction of some people occupying the houses belonging to the church without notifying them. People that occupied the houses requested for some time but the committee rejected their request and this resulted into a conflict. Then the police which had accompanied the committee members arrested the people that occupied the houses. They were released under bail on 9<sup>th</sup> October 2016.

**Arrest of Teacher**

On 3<sup>rd</sup> December 2016, Saeed Abbas Abdel Fatah, 55 years old, teacher at Evangelical School, former SPLM-N member, he received a Telephone call from NISS member (office) requesting him to report at NISS office near Shandi park station at Khartoum North. On reporting, he was questioned about his political activity and was released the second day. On 5<sup>th</sup> December 2016, he was called up again to NISS office. From there, he was taken to security custody at Coober prison.
During his detention NISS could not allow his family to visit him except once later on 21\textsuperscript{st} January 2017 since he had been arrested. Also NISS denied him medication and necessary nutrition not even offered by his family.

Assault of an elderly man as police watched

On 13th October 2016, Haj, Aboud Mohamed, the crier (Muezzin) of Elfaid mosque was beaten and insulted by Ommda, Almanzoul of Dar-Faied/ Hawazma in front of Alfaid police post.

Haj/ Aboud Mohamed, 60 years old, is the muezzin of Elfaid mosque and a farmer/cultivator from Tagali tribe of Nuba ethnics. Ommda Almanzoul Kuku Almanzoul, 52 years old, is the community leader (Ommda) of tribe one of the Arab tribes in South Kordufan who are mainly cattle keepers.

On 13th October 2016, Haj/ Aboud went to his garden which is half kilometer from town. When he arrived, he found cattle (about 19 cows) grazing on his farm/garden. Then he gathered and took them towards the police post where there is a prepared fence (locally called ZARIBA) for such animals to be kept till the owner appears. Before entering the cattle to the fence, the owner Ommda, Manzoul came with a stick and instantly started beating Aboud while insulting him by calling him a SLAVE, associating him/his Tagali tribe with rebels and swearing that he will drive him out of Elfaid town. As a result, the Ommda managed to take his cattle and went away. All this happened as the police officers watched.

In a short while, Aboud decided to report the matter to police officers in order to get justice but, the police did not record his case. Instead they referred him (informed him to go) to the prince (higher than Ommda in community leaders’ hierarchy).

13 Observation of Court ordeal

13.1 The trial of Pastors’ and activist

There was a Christian conference held in Addis Ababa, Ethiopia between 17\textsuperscript{th} - 23\textsuperscript{rd} October 2015. The conference was about the situation of Christians in Sudan especially after cessation of South Sudan. Among the attendance of the conference were thirty Christians from Sudan and South Sudan. Pastors Hassan and Kuwa were among the Sudanese participants. Pastor/ Hassan presented a paper about the kind of oppression Christians face from authorities in Sudan. It was during this conference that they met with Peter from Czech Republic among other people.

On 18\textsuperscript{th} December 2015, Peter (who was on a visit to Sudan), Hassan, Kuwa, and Moneim among others were arrested by NISS and held in NISS custody for five months until 18th May 2016 when NISS opened a case against the four of them at State Security Prosecutor’s (SSP) office. Their case number is 41/2016 where they were accused of committing crimes against the state which is Criminal.

The laws and articles that the prosecutor accused them of breaching are:

   - Article (21): Joint acts in execution of criminal conspiracy
   - Article (50): Undermining the constitutional system
   - Article (51): Waging war against the state
   - Article (53): Espionage against the country
- Article (57): Entering and photographing military areas and works

3. Organizing the Voluntary and Humanitarian Activity Act
- Article (23)

They remained in SSP cell until 4th August 2016 when SSP office referred their case to court. Then, they were transferred from SSP cell to Omdurman prison and later transferred to Alhuda prison in the same town of Omdurman.

The case was before Justice Dr. Osama Mohamed Abdalla at Khartoum Centre court. The first court hearing was scheduled for 14th August 2016 but it was postponed to 21st August 2016 because the accused were not brought from the prison to the court. Therefore, 21st August 2016 was the first time for the accused to appear before court. There were twenty one (21) subsequent court sessions and three (3) of them were in January of 2017 when the judge delivered his verdict.

The defendants were accused in this order.

1st defendant: Pastor, Peter Justin (Citizen of Czech Republic)

2nd defendant: Pastor, Hassan Abduelraheem Kodi

3rd defendant: Pastor, Abduelmoneim Abdalmwlla

4th defendant: Activist, Kuwa Shamal Abu Zumam

The accused were defended by a team of more than twenty five (25) lawyers divided in three groups. The 1st group was headed by Shomeina for the 1st defendant, the 2nd was headed by Muhanad for the 2nd and 4th defendants and the 3rd was headed by Saleh Mahmoud for the 3rd defendant. Most of the court trials were held under very tight security and many times the activists and other supporters were prevented from attending.
During the court sessions the following transpired;

- The investigator/prosecutor read the details of the charges preferred against the accused, displayed videos and audio recordings as evidence with the help of the translator. However, the translator was changed during the 4th court session and in some sessions there was no translator. According to the investigator, the accusations' articles were interpreted as follows;
  
  I. The four defendants carried out intelligence activities against Sudan and gave fiscal support to Sudan People Liberation Army – North (SPLA-N) in South Kordufan.
  
  II. They are preparing allegations about genocide, extrajudicial killings, civilian displacement and burning villages by Sudan government.
  
  III. They are preparing allegations about demolition of churches, oppressing Christians and torture by Sudan government.
  
  IV. The first defendant came to Sudan purposely to take photos of the demolished churches.

The defendants denied all the charges.

- The defendants’ panels cross examined the prosecutor/investigator.
- The complainant/NISS representative (Abass Eltahir – NISS officer) made a statement and was cross examined by the two panels.
o The accusing witnesses were seven, four of them are NISS officers, two of them were arrested by NISS in connection to this case and they were released. One of them (Benyamin Breima) was among the people who attended the conference and the other one is the burnt student (Ali Musa Omer) and the seventh witness was a consultant at the ministry of foreign affair (Dr. RehabMubarak). The seven witnesses were examined by the judge and the two panels.

The court sessions went on up to January 2017 as indicated below;

 o The Judge Dr. Osama released the official accusations against the defendants.
   - The 1st defendant; accused by articles 21, 51, 57 & 64 in Criminal Act, article 8 & 23 in Organizing the Voluntary and Humanitarian Activity Act and article 30 in Passport and Immigration Law.
   - The 1st defendant’s lawyer rejected the accusations and considered his client innocent because what was presented was not supported by evidence. The lawyer requested the court to judge accordingly.
   - The 2nd and 3rd defendants were accused under articles 21, 53, 64 & 66 in Criminal Act. The defendants’ lawyers denied the accusation.
   - The case of the 4th defendant was rejected and he was set free because the evidence did not approve the conviction.

 o The defendant witnesses were two students who are classmates to the burnt student. They were examined by the judge and the two panels.

 o The judge delivered his verdict/ judgment where the three defendants were found guilty according to the court;
   1) The first defendant was sentenced to twenty-four (24) years in prison.
   2) The second defendant was sentenced to twelve (12) years in prison.
   3) The third defendant was sentenced to twelve (12) years in prison.

Some observation points

☆ The lawyers objected many times the way in which the court was running. The first defendant’s lawyer commented that “it’s unacceptable for the court to be directed/ driven by one of the litigants”. Other lawyer from the defendants’ panel commented to HUDO that “The Judge keeps on postponing the trial for all sorts of reasons which creates a wrong impression of delaying justice on the side of the accused”. One of the observers lawyer commented that: “It’s very clear to any observer that, the judge is doing his best to protect the accusing panel from being objected or critiqued”.

☆ During cross examination, some questions were rejected or could not be answered because it was considered to be part of the national security.

27 For more information about the mentioned articles, please visit the notes in eighth update.
While answering a question from the defendants’ panel, NISS representative justified that they ignore the criminal procedure law because the national security law allows them.

One of the accusing witnesses who is an officer of NISS confirmed in his testimony that, there is another case under preparation by NISS against the second defendant.

13.2 Blue Nile Trial
After the war outbreak in Blue Nile (September 2011), one hundred and fourteen (114) people were arrested by MI in Blue Nile under the command of the NISS. The detainees were members of SPLM-N political party and SPLA-N soldiers who were part of the integrated unit that was formed according to the CPA. They were detained in different prisons within BN and Sinaar states. After two years (January 2013), twenty eight (28) of them were released and the eighty five (85) who stayed in prison were charged.

On May 2013, their court appearance started in Sinja town headed by General court judge Abduelmoneim Younis. The trial went on and their verdict which was imprisonment was delivered sequentially. One was released for medical reasons and three (3) others were released because the evidence was not credible enough to convict them. The defendants’ lawyers appealed to the court of appeal in which the court changed the charges of two to death sentence. Again the defendants’ panel appealed to the higher court which ordered for the re-trial of the
case at the primary court. The primary court ordered that the three who were set free be arrested again. They were arrested and sentenced to death with other two who were imprisoned. This decision (verdict) was approved by the special appeals court.

On 23rd October 2016, president Omer Albashir, announced amnesty (appendix - 5) for those prisoners and they were released except five for the reason of mistakes in their names, they were released in different periods and later on 27th March 2017 the last three were released after the defendant’s lawyer wrote a message to the presidential office seeking correction for the names. Those three are:

1) Ali Idris Meida  
2) Ali Tugul Bolad  
3) Hassan Suliman
